

Building the Mediterranean future together
Construisons ensemble l'avenir de la Méditerranée

لبنين معًا مستقبل المتوسط

TOWARDS A SHARED VISION OF A SUSTAINABLE MEDITERRANEAN BY 2050, AND TRANSITION PATHWAYS

WHAT IS MED 2050 ?

- An **INNOVATIVE** and **PARTICIPATORY** project (2018-2022);
- A **FORESIGHT** exercise;
- A tool for North-South **DIALOGUE**, aiming at confronting several visions of the future of the Mediterranean by 2050 (with an intermediate horizon at 2030) and **CO-CONSTRUCTING TRANSITION PATHS** towards sustainable development.

WHAT ARE THE GOALS ?

- To recreate links and feed debate between countries of the 3 Mediterranean shores on the region's future, via a **FORESIGHT NETWORK** and a **PARTICIPATORY** approach, allowing stakeholders (decision-makers, experts and members of civil society) to give their visions of the Mediterranean by 2030 and 2050 and to dialogue on this basis;
- To place the sea and climate change upstream of a systemic thinking framework;
- To co-develop solid, coherent and realistic **TRANSITION PATHS** based on contrasting visions of actors, by working on the temporalities, bottlenecks, favorable factors, opportunities and risks to be overcome or valorized to reach desirable objectives.

BENEFICIARIES OF MED 2050

- Participants in the **FORESIGHT NETWORK**, nourishing the **SCIENCE / POLICY / SOCIETY INTERFACE** created by **MED 2050**;
- **STAKEHOLDERS** of the future of the Mediterranean basin, especially Mediterranean youth;
- **MED 2050 PARTNERS**, benefiting from targeted information and a long-term vision on the Mediterranean future.

HOW IS IT STRUCTURED ?

- A **MODULAR** organization;
- **SUCCESSIVE** and **COMPLEMENTARY** modules, each having its own purpose;
- A **FORESIGHT NETWORK** composed of experts, decision-makers and members of civil society from all Mediterranean countries;
- A **WEB PLATFORM** on which members can exchange information and communicate on new initiatives related to the future of the Mediterranean;
- A **CONTINUOUS** mobilization of resources and **DISSEMINATION** of results via the foresight network.

MOBILIZATION OF EXISTING RESOURCES AND SYNERGIES WITH OTHER INITIATIVES

2018-2019

UPSTREAM:
Set up a **COLLECTIVE INTELLIGENCE NETWORK** around the future of the Mediterranean

2019-2020

MODULE 1:
Evaluate the **TRENDS-DISRUPTIONS - WEAK SIGNALS** that are emerging in the Mediterranean basin

2020

MODULE 2:
Bring out and confront **CONTRASTING VISIONS** of the region's future by creating a platform for dialogue between stakeholders

2021

MODULE 3:
Co-construct **SHARED SCENARIOS** integrating diversity of visions, while developing a common strategy

2021-2022

MODULE 4:
Draw and compare reasonable, consistent and grounded **TRANSITION PATHS** to achieve shared goals

2018-2022 : IMPLEMENTATION
AND DISSEMINATION OF RESULTS
