“Bridging the Science-Practice-Policy Gap in Mediterranean Biodiversity Protection”
25 October 2017, Barcelona

MED Biodiversity Protection Community
Towards a commitment to greener events

We are convinced of the need to decrease impact of our events on environment and biodiversity.

We aim to work together in that direction as Biodiversity Protection Community.

We seek your commitment to work together towards a set of objectives and guidelines to this end.
Some examples

- promoting sustainable mobility
- combining several meetings in the same location
- encouraging accommodation in eco-friendly hotels
- selecting catering companies that avoid the use of plastic, single use items and prioritize local products
- providing access to water in reusable glasses and dispense in carafes
- encouraging waste recycling
- minimize the use of printed materials
- use recycled, recyclable, chlorine-free, FSC paper and non-toxic inks in print
- seek to hold my meetings in energy-efficient buildings
Next steps

- Is this relevant for you?

- Aim to reach consensus on what can be our joint commitment

- Liaise with other Interreg MED Communities as the Green Growth one

- Give momentum to our commitment at Interreg Med Mid Term Review
Do we join forces for Greener Events
