

BLUE GROWTH COMMUNITY 2nd Annual Assembly and Webinar on Sustainable Blue Economy

12 & 13 October 2021
online

1. Context and objectives of the event

The second phase of the BLUE GROWTH COMMUNITY project was launched almost two years ago. Many activities related to community building, transferring, mainstreaming and strategic liaising have been implemented so far.

All the thematic working groups are being set up and starting to work on the actual transfer and mainstreaming of the community's tools.

This is a crucial period for the community considering the current transition to the upcoming Interreg Euro-MED programme and the recent release of the [European Commission's Communication on a new approach for a sustainable blue economy in the EU Transforming the EU's Blue Economy for a Sustainable Future](#).

It is therefore the right time to gather the members of the Community and the Advisory Board, and reflect on current and future challenges related to the development of sustainable Blue Economy.

In this context, the Community is organising its **second Annual Assembly meeting** as well as a **Webinar on Sustainable Blue Economy**, involving stakeholders from all Europe's Sea Basins.

This event is organised in the margins of the **General Assembly 2021 of the Conference of Peripheral Maritime Regions of Europe (CPMR)**. It consists of two main events:

- The **Annual Assembly of the Community**, including a **meeting of the Advisory Board**
- A **Webinar on Blue Growth "Fostering Sustainable Blue Economy within and beyond the MED"** co-organised by the Community and the CPMR, involving all the CPMR Geographical Commissions and their members

The webinar aims to share results from Projects and regional practices, exchange views, contribute to some tools and studies in particular, among the different EU sea-basins (CPMR Geographical Commissions). It also seeks to contribute with concrete experiences to the argumentation that regions and key stakeholders can play a key role in the implementation of maritime policies and in particular the new approach of the European Commission on sustainable blue economy.

The Webinar will be divided into 3 sessions:

- Innovative funding solutions (Blue funding)
- Circular Blue Economy (with a focus on the aquaculture sector)
- Blue skills (with a focus on gaps in blue economy sectors)

2. Expected outputs

- Contribute to Blue Growth Community's twofold capitalisation objective (namely mainstreaming and strategic liaising) by promoting the transfer and capitalisation of the jointly elaborated tools/measures and results that explicitly target collective territorial appropriation and ownership
- Consolidate the results achieved through the thematic working groups and plan activities ahead
- Pave the way for the elaboration of the Community's report on Blue Circular Economy
- Promote the Statement on how the BGC can contribute to the achieving the objectives set by the European Commission in the Communication on a Sustainable Blue Economy

3. Languages

- The meetings of the first day, Tuesday 12 October (Annual Assembly and Advisory Board meeting), will be held in **English only**.
- Interpretation from and into **English, French, Italian, Spanish and Greek** is foreseen for the Webinar that will take place on the second day, Wednesday 13 October,

4. Provisional agenda (as of 13 September 2021)

1st Day: 12 October 2021

09.30-13.00	ANNUAL ASSEMBLY MEETING
09.30-09.45	WELCOME AND REGISTRATION
09.45-10.00	WELCOME ADDRESS George Alexakis , Vice-Governor, Region of Crete, Vice-President of the CPMR for maritime affairs (<i>tbc</i>) Annibale Cutrona , National Inter-University Consortium for Marine Sciences (CoNISMa), Director, BGC's Lead Partner – Introduction
10.00-10.30	OVERALL UPDATE ON THE COMMUNITY'S ACTIVITIES Caterina Praticò , CoNISMa, BGC's Coordinator Representative from ASCAME , BGC's Communication leader Representative from NTUA , BGC's Community Building leader
10.30-11.00	FOCUS ON TRANSFERRING AND CAPITALISATION ACTIVITIES Representative from CPMR Representative from Plan Bleu & IrRADIARE
