

Plan Bleu pour l'environnement et le développement en Méditerranée

Next steps

**Workshop on MSSD 2016-2015 Monitoring
Plan Bleu**

March 30-31 2016

Next steps

- 1. Workshop participants become members of a Working group for continuing the work on the core set of indicators**
- 2. Confirm the selection and the data availability per objective**
3. Populate the indicators with data easily available/accessible in the international agencies, national agencies and in the modelling exercises.
- 4. Set-up a first version of the sustainability dashboard**
- 5. Present this first dashboard at the Joint Focal Point Meeting in October 2016 (in Barcelona).**
- 6. To be endorsed by MSCD SC in Dec 2016 and by MCSD in 2017**

Next steps : testing the indicators core set

The core set of indicators could be also tested in few voluntary Mediterranean countries in focusing on the indicators requesting national sources.

These tests need some additional funds and the involvement of the concerned institutions within the country.

The project SEIS phase II focused on the H2020 indicators could tackle to the indicators core set.

Next steps: Cooperation and Data sharing

- 1. Strengthen the cooperation with UN system, international institutions, national institutions and stakeholders....**
- 2. Start to share existing data/information and indicators among countries (using Infomap and MAP Reporting System)**
- 3. Strengthen the data sharing among the national institutions on the indicators in synergy with the international initiatives.**
- 4. Develop a specific platform for the Mediterranean Observatory**
